Held prisoner in remote testing facility in the middle of the Brazilian rainforest, subjected to torture and abuse, Wilson Rousseau has long since given up hope of being rescued. Days blend together until he canâ€™t help but long for death. Saved from his isolated hell by a femaleâ€™s distress call, he feels an instant connection to her.

Kimberly thought she was taking a trip to South America to study indigenous plant life. She had no idea she was playing into the hands of a mad man whose goal is to create a genetically altered army of super soldiers. When she finds herself locked in a cell with Wilson, a man who would give his life to save hers, there is an instant attraction. But the dark secrets surrounding their imprisonment may change their lives forever. Can they find a way to beat the odds and be together or will the mad man win?
